

StimuLITE® HONEYCOMB SHEETS

"Breathable Sheets" to Enhance Seating & Positioning Products

VENTILATED SHEETS CONTROL HEAT AND MOISTURE

Supracor, manufacturer of the innovative Stimulite® Honeycomb Cushions, now offers Stimulite Honeycomb Sheets—breathable layers of honeycomb to enhance seating and positioning products. Comprised of aerospace honeycomb in a soft, flexible form which contours to body shape, the sheets are perforated to provide ventilation for the control of heat and moisture—one of the primary causes of decubitus. Stimulite Honeycomb Sheets also provide pressure relief and shear force reduction for applications that require additional cushioning and comfort.

Flexible and versatile, these state-of-the-art, breathable sheets can be used over any seating, positioning or reclining surface, including custom contoured cushions and back supports. A breathable sheet is available with fabric on one side for the enhancement of arm and head rests without the need for additional upholstery. They can also function alone in furniture (office, residential and patio) and bedding, giving a unique

level of comfort plus ventilation.

Stimulite Honeycomb Sheets feature advanced materials which are antibacterial and antifungal. Unlike most foams, these materials are not affected by bodily fluids and they naturally resist odor.

Breathable sheets can be easily washed and dried, especially if they are applied in a removable fashion.

Methods for adhering the sheets to various surfaces such as foam, metal and upholstery include removable velcro, adhesives and stitching. A hot knife is recommended for cutting the sheets and creating angles and beveled edges.

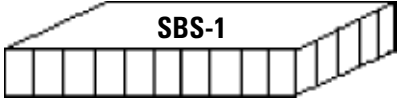

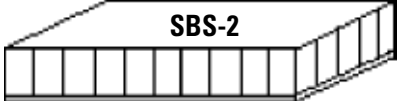

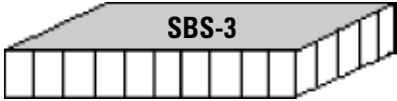

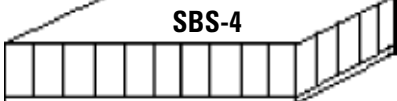

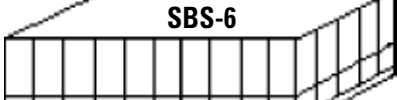

Now rehab engineers, custom fabricators, and furniture designers can provide the important benefit of ventilation to virtually any seating product. Find out how Stimulite Honeycomb Sheets can breathe fresh air into your product, enhancing its comfort and performance.

STIMULITE: HONEYCOMB SHEETS

STIMULITE: HONEYCOMB SHEETS

CODE	FACING	THICKNESS (Inches)	LAYERS	DESCRIPTION
 SBS-1	NONE	.50	1	Our most flexible and breathable sheet; can be used over seating surfaces, arm and head rests, lap trays; orthotics.
 SBS-2	1 SIDE	.50	1	Faced on one side only, easily contours over any surface with open honeycomb cells facing up.
 SBS-3	FABRIC 1 SIDE	.50	1	Fabric on one side eliminates the need for upholstery on arm and head rests.
 SBS-4	1 SIDE	.67	1	Same as SBS-2 only thicker; contours over any surface with open honeycomb cells facing up.
 SBS-5	1 SIDE	1.00	1	At 1" thick, this single-faced honeycomb sheet provides pressure relief and stability to any seating surface.
 SBS-6	1 SIDE	.75 & .25	2	Double honeycomb panel provides a ventilated, ready-made back support or seat cushion.
 SBS-7	2 SIDES	.75	1	Stiffer layer of honeycomb with two facings. Effective as a support layer or for correcting pelvic obliquities.

Sheets are 24" x 24"; other sizes are available.
