

TOM 5 Streeeter

Fully adjustable and foldable comfort rehab-stroller

- 100% ALUX high-tech chassis
- 3 sizes- MINI, STD, MAXI
- unique MONOSLIDE design
- excelent colour range
- wide accessory range

Newly redesigned high-tech full-aluminum stroller chassis is produced by the high-tech ALUX production method, which takes advantage of an aluminum alloy and a titan joint hardener combination. ALUX method ensures chassis low weight and high durability.

Fully foldable chassis includes among others well designed chassis to seat interface, safe brake-system, spring cushioned shock absorber, ergonomically shaped handlebar with the height adjustment.

100% ALUX full-aluminum seat is as well as produced fully by high-tech ALUX production method. Seat-unit is detachable, reversible and fully size and position adjustable. It includes not only highly innovative MONOSLIDE design, but as well as easy tilt-in-space telescope operated system and well approved flexible system for attaching of fixation devices and positioning accessories. Seat shell is covered by fully detachable soft padded textile upholstery in fashionable design. Easy handling is ensured as well as by the stroller's fully foldable frame even with attached seat.

TOM 5 has been designed in cooperation with professional designers and seating specialists and it excels not only in design but as well as in use value – it is one of the lightest strollers in the category. Additionally 175/265 mm solid wheels enables usage of the product not only in town but as well as for the light outdoor activities.
